

STARLINK™ BUILT BY ROWE®, POWERED BY  **ecast™**

GIVE'EM WHAT THEY WANT!

The Industry's #1 Internet Jukebox

When your customers are happy and "get what they want" you can count on them staying in your establishment longer, having more fun, and spending more money. The STARLINK Jukebox powered by Ecast gives customers more opportunity for all of that. The Jukebox Industry's #1 Internet Jukebox, The STARLINK, has more features and more revenue opportunities than any other jukebox available today.

Single Song Download™

Only with Ecast can your patrons select Single Song Download. No fuss, no muss, just tens of thousands of songs to choose from. This unique feature allows patrons to select their favorite tunes from the industry's largest music library. Users simply search for the music they want...by artist or by album and the music is then downloaded from Ecast's library via the Internet and a high-speed connection, queued, and played.

Ecast is the only company offering this revenue-increasing feature. **It's simple - It's proven - It's here!**

Make Mine First

Make Mine First™

Patrons no longer need to wait around, getting more and more frustrated that their song selection hasn't

been played. They can hear what they want – **WHEN THEY WANT!** Simply select Make Mine First! and the music selection is bumped to the front of the queue.

Credit Card Dipper

Ecast is the only company to offer patrons the ability to pay using cash or credit card or coin. What this provides is easier access to music and entertainment which means happier customers who stay longer!

Full Album Selection

Only on the STARLINK can patrons choose from any song on their favorite albums, not just the few song selections available on other jukeboxes. We know that more selection means more money and more choice.

Local Music

Hey – have an unsigned local band you like? Want to have the music on the STARLINK Jukebox? We can make that happen. Ask your local operator or call Ecast for details on the Unsigned Artist Program.

—BE THE FIRST TO HAVE THE COOLEST JUKEBOX IN THE MARKET!
